**Item 8.01 Other Events.**

On June 17, 2020, Adamas Pharmaceuticals, Inc. announced the completion of its evaluation of ADS-5102 in multiple sclerosis patients with walking impairment (MSW).

A comprehensive analysis of the INROADS Phase 3 data validated the top line results announced in December 2019 and informed a revised target product profile reflecting the scale of clinical benefit observed in the study. Additional patient, physician, and payer research based on the revised profile projected a limited commercial opportunity. Further engagement with the U.S. Food and Drug Administration (FDA) to fully understand a potential path to submission confirmed the need for an additional pivotal Phase 3 confirmatory study. Based on these findings, Adamas reconfirms it will not initiate further Phase 3 development in MSW.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

**Adamas Pharmaceuticals, Inc.**

Dated: June 17, 2020
